## PROFESSIONAL SUMMARY

Senior Front-End Developer with 5+ years of experience specializing in **Vue.js**, **Nuxt.js**, and **TypeScript** for **scalable e-commerce** platforms. Skilled in **API** integration, **performance optimization**, **SEO**, and **web accessibility (A11Y)**. Proven ability to implement **best practices** for **web** applications, improve **performance**, and collaborate with **product** teams in **Agile** environments. Expert in **JS** development, using **Composition API** to deliver high-quality, maintainable solutions. Experienced in resolving complex **technical** challenges, ensuring robust and efficient systems, with a focus on **optimization** and delivering exceptional **e-commerce** user experiences.

## SKILLS

**Frontend Development:** Vue.js (v2 & v3), Nuxt.js, TypeScript, JavaScript, HTML5, CSS3, SCSS

**Vue.js Ecosystem:** Composition API, **Vuex**, Vue Router, **Headless UI**

**API Integration:** RESTful APIs, **GraphQL**, server-side rendering (SSR)

**Performance Optimization:** Lazy loading, virtual scrolling, **SEO best practices**, and web accessibility (A11Y)

**Testing & Tools:** Mocha, Jest, **Cypress**, Git, automated testing, CI/CD pipelines

**E-commerce Expertise:** Checkout optimization, e-commerce system scalability

**Collaboration:** Agile development, close teamwork with product and back-end engineers

**UI/UX Design:** Tailwind CSS, Figma, **Responsive design**

**Cloud & DevOps:** Docker, AWS, GitLab, CI/CD

**Databases:** SQL, NoSQL (MongoDB, Postgres)

**Languages:** English (**C2**), French (B2), Arabic (Native)

## PROJECTS

**Full Stack Developer | TRP** ([github.com/trp-project](https://github.com/trp-project))

- Led the migration of CMS components using **Vue.js 3**, improving API integration and reducing load times by 25%.

**Developer | Screamer** ([github.com/Screamer](https://github.com/Screamer))

- Developed a social media platform using **Angular** and **C# .NET Core** following **Domain-Driven Design (DDD)** principles.

**Developer | Silikan** ([github.com/silikan](https://github.com/silikan))

- Led the development of key front-end and back-end features using **Vue.js 3**, **Laravel 10**, and **Tailwind CSS** to deliver a responsive user interface.

**Collaborator | nebula** ([npmjs.com/nebula](https://npmjs.com/nebula))

- Created a **TypeScript NPM package** to automate **CSS/SCSS** extraction, reducing bloat and improving maintainability across **VueJS**, **React**, **Svelte**, and **Angular** projects.

## WORK EXPERIENCE

**Full-Stack Engineer | 24markets.com**

Sep 2024 – Present | Remote

- Migrated the front-end architecture from **Vue.js 2** to **Vue.js 3**, reducing page load times by 40% and increasing maintainability.
- Implemented **TypeScript** for strict type checking and optimization, ensuring code quality and enhancing system scalability.
- Improved user experience with **server-side rendering (SSR)** and collaboration with the back-end team for smooth API integration.
- Drove a 25% increase in mobile traffic through enhanced performance and responsive design.

**Front-end Engineer | Monday Merch**

Jan 2024– Sep 2024 | Remote, Netherlands

- Spearheaded the migration of a high-traffic **e-commerce platform** from **Vue.js 2** to **Vue.js 3**, reducing checkout times by 5 minutes and increasing sales by 20%.
- Optimized page load times using **virtual scrolling** and **lazy loading** for over 5000+ items, boosting engagement by 30%.
- Collaborated with the back-end team to ensure seamless API integration and improved web performance with **Nuxt.js** techniques.

**Full Stack Developer | TRP**

Jun 2023– Dec 2023 | Remote, France

- Migrated the CMS from **Vue.js 2** to **Vue.js 3**, reducing load times by 35% and doubling user engagement.
- Streamlined deployment processes with **Docker** and **AWS Elastic Beanstalk**, reducing deployment times by 40%.
- Worked closely with the back-end engineers to ensure smooth API and database performance.

**Full-stack Engineer & Co-founder | Shortcut**

Oct 2022– Jun 2023 | On Site

- Managed the full-stack development of an online platform using **Vue.js**, **Nuxt.js**, and **Nest.js**, delivering the project in under 6 months, improving system efficiency by 30%.
- Led the migration of legacy code to **Vue.js 3**, ensuring code maintainability and scalability..

**Software Engineer | Sig-Service**

May 2022– Oct 2022 | Remote

- Developed the **SFA-13 CRM & Acile App** using **Vue.js** and integrated it with the **Odoo API**, improving system efficiency by 30%.
- Established a **GitLab** environment for continuous integration and improved team productivity.

## EDUCATION

**Bachelor's degree in Computer Science**

University of Dr. Tahar MOULAY,

## FREELANCE EXPERIENCE

Over **1,300+ hours** on **Upwork** with a **5-star** rating, specializing in front-end development with **Vue.js**, **JavaScript**, and related technologies.
